

Levan Tediashvili

FRONTEND ENGINEER

levan.tediashvili@outlook.com
linkedin.com/in/levantediashvili
github.com/lvntd
Tbilisi, Georgia

Software Engineer with 5 years of experience delivering production applications end-to-end from Next.js and React Query on the client to Node.js, Express and MongoDB on the server. Alongside that, I built **Prive AI**, a personal product that took me deep into LLM integration, RAG pipelines, agentic workflows with LangChain, and streaming chat interfaces - the same problem space as modern AI-driven products.

■ EXPERIENCE

SAVOIRR

Zurich, Switzerland

Frontend Engineer · Full-time, remote

Mar 2026 – Present

SAVOIRR is a neutral, AI-powered platform for EU policy monitoring and public affairs, used by corporates, consultancies, and political organizations to track legislation and stakeholders in real time. I build the frontend of the core SaaS product: document-dense interfaces, search and navigation across large policy datasets and reporting based on AI-driven analytics.

TypeScript · React · Material UI · TanStack Query · CI/CD · Cypress

TNET

Tbilisi, Georgia

Frontend Engineer · Full-time, hybrid

Oct 2023 – Mar 2026

TNET is Georgia's largest technology company and a member of TBC Bank Group, operating 10 digital platforms and 5 mobile apps serving up to 2M unique users monthly, roughly 70% of the country's adult population.

- **Led frontend modernization of a housing platform:** managed a team of 3 in a complete rewrite from jQuery to Next.js/TypeScript, delivering a scalable architecture serving 500K+ monthly users with improved SEO and performance.
- **Architected cross-platform authentication:** built a centralized SSO solution integrating Facebook, Google, and Apple OAuth across 10 platforms with seamless cross-domain user management, supporting 2M+ registered users.

TypeScript · Next.js · Tailwind · React Query · Jest · Playwright · A/B Testing · Docker · Python · FastAPI · AWS · LangChain

Axon Development Group

Kraków, Poland

Frontend Developer · B2B, full-time, remote

Jul 2022 – Oct 2023

Axon is a full-cycle software development company specializing in turnkey solutions across web, mobile, and blockchain.

At Axon, I developed and shipped a production web platform for fabnite.com, an event-management platform. It enables organizers to manage the full event lifecycle - from ticket creation and sales across multiple ticket types, to inventory tracking and resource management for on-site materials.

React · TypeScript · Redux · Redux Toolkit

EPAM Systems

Junior Software Engineer · Full-time, hybrid

Tbilisi, Georgia

Dec 2021 – Jul 2022

- Implemented mobile-first responsive design with Material UI and Tailwind CSS alongside UX designers, ensuring cross-browser consistency across desktop, tablet, and mobile.
- Developed and maintained unit test suites with Jest and React Testing Library, improving coverage and reducing regressions in production.

React · TypeScript · Material UI · Tailwind CSS · Styled Components · Redux

Caucasus University

Guest Lecturer · Part-time

Tbilisi, Georgia

Mar 2018 – Jun 2022

Taught Georgian Tax Legislation to undergraduate and postgraduate students.

RSM Georgia · Nexia Georgia

Tax Intern → Tax Manager · Full-time, on-site

Tbilisi, Georgia

Mar 2013 – Dec 2021

Delivered a full range of tax advisory services in compliance with Georgian laws and regulations.

PROJECTS

Prive AI · solo project

Mar 2025 – Present

An AI research assistant for tax advisors and accountants, giving up-to-date answers on tax matters — **700+ registered users to date**. More than an LLM wrapper: a RAG pipeline over tax sources plus a set of calculation tools for precise, verifiable figures. Designed, built, and deployed end-to-end, solo — frontend, API, data layer, and infrastructure.
